Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

Applicant's election without traverse of Group II (claims 1-18) in Paper No. 7 is acknowledged.

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 7, the phraseology "said cover member being formed to the shape of the duct" is not readily understood by the Examiner. Specifically, what is meant by "the shape"? Cross-sectional shape? In claim 10, line 7, the phraseology "said cover panel being formed to the shape of the duct" is not readily understood by the Examiner. Specifically, what is meant by "the shape"? Cross-sectional shape? In claim 15, lines 7-8, the phraseology "said cover member comprising a material modifiable in the field to conform to the shape of the duct" is not readily understood by the Examiner. Specifically, what is meant by "the shape"? Cross-sectional shape?

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 8-12, and 15-17 are further rejected under 35 U.S.C. 102(b) as being anticipated by Dugger. Dugger discloses an access assembly comprising a duct (22), a fire resistant seal (74), a rectangular fire resistant cover member (10) in the

shape of the duct (22), a plurality of fasteners (see figure 2), and a plurality of wing nuts for mounting the cover member (10) to the duct.

Claims 3-7, 13, 14, and 18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Great Britain patent to Dutton discloses the use of spring clips. U.S. patents to Wenz and Geiser disclose curved shaped access panels.
